About the Composer

Sarah McMahill (b. 1978) comes from a musical family and is a life-long musician. They started in the 1980s with piano and clarinet lessons. They blossomed while studying music education at Doane College (Crete, NE) with clarinet and vocal scholarships in 1997. They had a few experiences during their two years at Doane that influenced their decision to transfer to Southwest MN State University (SMSU) where they got their BA in theatre (directing and vocal techniques for the actor), English (creative writing), and multi-media art. They then attended Saint Paul College for their certificate in massage therapy. They received multiple certificates in enneagram teaching and is an Accredited Enneagram Professional through the International Enneagram Association.

They started Wellness Weaving in 2023 which weaves together Kintsugi Studios & Publications, Heart to Hands Myofascial Massage, and The Dragonfly Enneagram Center. Wellness Weaving is about understanding and experiencing how our hearts, bodies, and minds are woven together through expression, bodywork, and mind-gardening.

Kintsugi Studios & Publications has art and recording studios, self-publish sheet music, poetry, short stories, and non-fiction. Sarah's compositions and creativities are inspired by social justice, history, the enneagram, literature and poetry, science fiction/fantasy, nature, and spirituality. They have performed with the St. Anthony Civic Orchestra, St. Anthony Community Theatre (cast and pit orchestra), Calliope Women's Chorus, and One Voice Mixed Chorus. They have compositions for clarinet, piano, voice, choir, and other instrumental ensembles. They recorded their first album of 9 enneagram songs (premiered in Canada April of 2022) and have been arranging original solo compositions for choirs.

Sarah records as Ceramic Personalities-Tease.

They are a member of ASCAP, ACDA, and IAWM.
